

Feb. 19, 1980 - Tues.

Dear Vickie and Jimmy,

I thought of you all week-end and I hope you had a good time. It must be a beautiful place to be.

I met my cousin Verna again this morning at the library and I will bring all my interesting notes with me. Verna does all the work with the micro film and I copy her notes.

Ruthie had some surprising news to tell us yesterday. She is pregnant and expects her baby in September, a month after Ruthie's 40th birthday. She is very excited about it, altho it wasn't planned. She must have forgotten to see her diaphragm.

I hope Mary saw the same notice on T.V. that I just did. It said most women get cysts on their uterus and usually a hysterectomy is performed but they should not believe it until they inquire about myomectomy. (what ever that is.) Jeanie had parts of both parts removed.

Dad has gone after our tickets so I will tell you about it when he returns. He just came home and this
